Premium Contains @ Usages :

Bhumyamalaki, also known as *Phyllanthus niruri*, is an Ayurvedic herb that has hepatoprotective properties that can help manage liver disorders. It can help repair damaged liver cells and tissues, and improve liver function.

Pittapado, an Ayurvedic herb, supports liver health by promoting detoxification and reducing inflammation. Its natural properties help in maintaining optimal liver function and overall well-being.

Green Chiretta (Kalmegh Panchang), a potent herb in Ayurveda, aids liver detoxification and promotes healthy liver function. It is renowned for its hepatoprotective properties, supporting liver health naturally.

Guduchi (Gulvel Panchang), a key ingredient in Ayurvedic medicine, is renowned for its detoxifying and hepatoprotective properties. It supports liver health by enhancing liver function and aiding in the natural detoxification process.

Ativish Mool, A valued Ayurvedic herb, aids in detoxifying the liver and enhancing its overall function. Its natural compounds help reduce inflammation and support liver regeneration.

Premium Contains @ Usages :

Kariyatu Panchang, an ancient herb in Ayurveda, is traditionally used for liver care due to its hepatoprotective properties, aiding in detoxification and promoting liver health. Its bitter taste stimulates bile production, supporting digestion and liver function.

Triphala Yavkut a potent Ayurvedic blend, supports liver detoxification and promotes healthy liver function. Its antioxidant-rich ingredients help protect liver cells from damage and enhance overall liver health.

Punarnava (Satodi Mool), known for its hepatoprotective properties, is traditionally used in liver care, aiding in detoxification and promoting liver health.

Kasani seeds, known for their hepatoprotective properties, help detoxify and rejuvenate the liver. They are used in Ayurvedic remedies to improve liver function and overall health.

Sarpankho Panchang is utilized in liver care for its potent detoxifying and hepatoprotective properties, promoting liver health and function. Its natural compounds aid in cleansing the liver and enhancing its regenerative capacity.
